RE: PUC Project No. 51874

Dear Chairman D'Andrea,

I am a minority member of DGSP2 LLC ("DGSP2"). I am writing to you in my personal capacity to dissociate myself from the complaint filed in this PUC Project 51874 on March 5, 2021 (the "Complaint").

The majority owner of DGSP2 is Rural Route 3 Holdings, LP ("RR3"),^{1,2} which unilaterally decided to file this Complaint on behalf of DGSP2. This Complaint was drafted and submitted without my prior knowledge and does not enjoy my support. With the problems facing ERCOT and the Texas public in the aftermath of the winter storm, I believe this is not the time to be asking the Public Utility Commission of Texas for higher electricity prices.

The Complaint argues that on February 15 and 16, 2021, DGSP2's generating resources "have been assigned significantly and incorrectly understated prices which would materially affect DGSP2's earnings." If repricing occurs for this two-day period, as demanded by RR3, the incremental revenues to DGSP2 will total approximately \$8,000 according to my calculations.³ This is a non-material amount and not worth wasting the Commission's time over.

Yours Sincerely,

Patrick de Man
